## ABOUT ME

---

I'm a Full Stack Developer with solid experience in building modern applications using TypeScript, Node.js, and React.

I work across the entire development lifecycle of web and mobile systems, with strong skills in both frontend and backend, delivering scalable, high-performance solutions focused on excellent user experience. I have over two years of hands-on experience, including working in startup environments and on freelance projects, where I was involved in everything from architecture planning to final delivery.

## SKILLS & PROFICIENCIES

---

- Javascript
- Typescript
- Node.js
- React
- React Native
- SQL
- Redux
- Restfull APIs
- HTML
- CSS

## EDUCATION

---

**Bachelor's Degree in Systems Development**  
Anhembí Morumbi - 02/2023 - 07/2025

## LANGUAGES

---

Portuguese – Native  
English – Advanced

## CAREER

---

### Full Stack Developer – Techlab

September 2024 – Present

- Focused on software development with expertise in **React**, **React Native**, and **Node.js**.
- Worked on the development of web and mobile applications using React, React Native, and Node.js, contributing directly to system functionality and scalability.
- Implemented modern, responsive interfaces with a strong focus on user experience (UX) and performance, applying best practices such as componentization, hooks, and Context API.
- Actively participated in coding and debugging tasks, ensuring high-quality software delivery.
- Developed RESTful APIs using Node.js and Express.js, integrating third-party services and external resources.
- Provided technical support to the user support team, focusing on quick issue resolution to ensure a smooth and reliable app experience.

### Full Stack Developer – Pipetech

May 2023 – April 2024

- Used **Node.js**, **NestJS**, **React**, **Vue.js**, **Flutter**, and TypeScript to design and implement robust and scalable software solutions.
- Integrated relational databases (e.g., PostgreSQL, MySQL) and performed data analysis to support application business logic.
- Developed dynamic and interactive dashboards, consuming data through RESTful APIs, and delivering a smooth, real-time user experience (UX).
